Chair Jeff Klein

Update on Three Creeks Nature Area

Chris gave us a presentation on the three creeks nature area off Harmony Rd. He and a group have been working to remove invasive plants and restore the wildlife. He welcomes people to come take a look or stop by on the weekend when tours of the area are given.

He also asked that we continue to monitor the Clackamas County Road improvement plans for the area. Many of the County plans will be destructive and may not elevate the traffic problems.

Chair Jeff Klein gave us an update on this project with information he learned at a Leadership Training meeting. There was discussion about what the County is trying to do to the area and what the benefits/losses for Milwaukie. To keep up to date check out harmonyvision.org

Jeremy Ferguson

Jeremy is now our interim Mayor; Jeremy introduced himself and explained what ideas he had for Milwaukie. It was great to hear from Jeremy and we all wish him well in his quest to improve Milwaukie.

Sidewalks on Logus

We discussed the ongoing construction on Logus and Chair Jeff Klein asked if people are facing difficulty with the construction crew to please let him know as he will work with the City to try to elevate any problems the construction is causing.
