

Linwood NDA Minutes for October 12, 2006—Meeting held at 7:00PM, Linwood Elementary School Library.

Chairs Lynn and Beth Kelland had all attendees introduce themselves.

Chelsea Bantz, Milwaukie High School Senior, presented information regarding her Senior Project, re-instating the “Umbrella Parade” in Downtown Milwaukie celebrating this Holiday Season and the City Hall Tree Lighting. The parade is scheduled for December 9th and the route will be officially announced. She shared pics of previous parades, which apparently ceased in the late 1990’s and explained how much fun it had been for her as a youngster. Her goal is to get all of the Milwaukie Schools’ children to participate with decorated umbrellas and anticipates that it should be widely attended, with prizes for the best decorations, etc. She is also looking for a total amount of about \$2,000.00 in funding and hoped that Linwood would contribute a share from available grant funds. The topic will be discussed at the November meeting.

Since no one from Clackamas Fire District #1 was on hand to share information for Fire Safety Month, Lynn provided some information he had obtained regarding fire alarms for the hearing impaired. Apparently there is information on the Internet for those who need further details, or you can get in touch with him for other contacts.

Alex Campbell, City of Milwaukie, discussed street maintenance and the final ideas for getting the money together to make street repairs into the future. The three-prong idea of raising funds, if passed by Council, will tackle King Road within the first 3 years of the 10-year schedule of projects, with Railroad Ave., Monroe St. and Stanley Ave. scheduled for years 4-6. Linwood Ave. and Home Ave. are scheduled for the 7+-years of the proposed program. He also requested feedback from attendees in order to tweak the proposal and can be contacted if you have further questions or would like to get additional information to him (campbella@ci.milwaukie.or.us).

Campbell also let folks know about opportunities to participate with regard to other street/traffic/transportation issues: Street Surface Maint. public meeting Dec. 17th, at City Hall; Transportation Sys. Plan Update see *Pilot* for further information as this gets going; and Transit Planning which will include public outreach as the Environmental Impact Statement moves forward and will be announced accordingly.

Beth advised that the speed trailer sign will be available and would like Linwood volunteers to make sure the rules will be followed for its use and that dates and times are scheduled for having it wherever the folks and the school think it would be most effective. Contact Beth or Lynn for more details.

Dolly Macken-Hambright advised folks of the stronger laws governing vandalism at historic places, most especially the Milwaukie Pioneer Cemetery and asked all to be vigilant should suspicious activity be spotted on the grounds. Also, the last 2006 clean-up is scheduled for Oct. 14th.

Don Wiley aired concerns regarding Furnberg Park and Dolly agreed to forward the information to Chief Kanzler and the PSAC, for some help regarding the issues at the Park.

It was decided that the Co-Chairs will ask N. Clackamas Parks to attend the Nov. meeting to answer some questions regarding the 3 Linwood Parks in general.

The meeting was adjourned.

Dolly Macken-Hambright for Wanda Drendel
